PROFILE

Motivated and detail-oriented undergraduate student currently pursuing a degree in Information technology. In my second year, second semester, I am eager to apply my knowledge in technology, data management, and software development to real-world challenges. Passionate about problem-solving and innovation, I am committed to continuously enhancing my technical and analytical skills. Actively seeking opportunities to gain practical experience and contribute to impactful projects in the technology sector.

EDUCATION

SRI LANKA INSTITUTE OF INFORMATION TECHNOLOGY (SLIIT)

2025 present

BSc (Hons) in Information Technology Specializing in Information Technology

PL/Royal Central College

2023

GCE Advanced Level, Commerce Stream

SKILLS

Programming Language

- Java
- python
- Kotlin
- R
- SQL

Databases

- My SQL
- MongoDB

Other IDE & Tools

- GitHub
- Figma
- VS Code
- Android Studio
- Eclipse

Soft Skills

- Quick Learning
- Time Management
- Communication
- Problem-Solving
- Self-learning
- Teamwork

PROJECTS

Android Mobile App Development

2/2025 - 6/2025

- Health Care Appointment Booking App
Created a personal finance tracking Android application to help users monitor income.
- Juice Ordering App
Designed engaging onboarding screens, product listings, and a simple cart system for users.
- Financial Tracking App
Created a personal finance tracking Android application to help users monitor income and expenses.

Online Drugs and Medicine Ordering System

7/2024 – 10/2024

- Developed key components of the feedback management system, enabling users to submit, view, and manage their feedback.
- Contributed to additional pages related to ordering and user interaction.
- Implemented CRUD operations for customer feedback management.
- Utilized Java for backend development and integrated MySQL for managing user data, orders, and inventory.

Boat Safari Management System

2/2024 – 6/2024

- Developed the Contact Us page with full CRUD functionality for admin to manage inquiries.
- Created a user-friendly Dashboard for administrators.
- Designed the web interface using HTML, CSS, Bootstrap, and managed backend operations using PHP and MySQL.
- Ensured secure user authentication and mobile-friendly responsive design.
- Tools & Technologies: PHP, MySQL, HTML, CSS, Bootstrap, GitHub, XAMPP

2/2025 – 6/2025

Coconut-Based Product Management System

- Currently developing the Supply Management System to track raw material supplies from coconut farmers.
- Worked on CRUD operations related to supply form handling and supplier data.
- Participated in the backend setup using the MERN stack (MongoDB, Express.js, React, Node.js).
- Collaborated with a team of 5 using Agile methodology with proper sprint planning and execution.
- Tools & Technologies: MERN Stack, GitHub, JavaScript, HTML, CSS

COURSES & CERTIFICATIONS

- Python for Beginners – University of Moratuwa
- Front-End Web Development – University of Moratuwa
- Java OOP course – Simple Learn
- Spoken and Writing English Course – Slega Academy
- AAT (Association of Accounting Technicians) – Final Level Completed
